

Software Evolution Assignments 7

Solutions are due 13.12.2004 10:00

Paper

1. Read the paper “Architectural Mismatch: Why Reuse Is So Hard”
2. You don’t have to write a summary.
3. But send me **at least one comment** on the paper. [3 points]

Questions

1. Find at least two important papers and at least two important researchers on *software architecture*. State why you think they are important and describe the search strategies you used. [2+2+2+2 points]
2. Give at least three locations where you can look for a specific paper. [3 points]
3. Find important *software engineering* conferences. How would you measure that a conference (or workshop) is important? [3+3 points]
4. What workshops on *software evolution* exist? [2 points]

Notes

Please send me the comment(s) *and* answers to the four questions per e-mail to

`zimmerth@cs.uni-sb.de`

until **Monday, 2004-12-13, 10 am**.
